... A platform to coordinate the international sustainability debate ...

Environment, Development and Sustainability

A Multidisciplinary Approach to the Theory and Practice of Sustainable Development

Editors:

Bhaskar Nath, European Centre for Pollution Research, London, UK

Luc Hens, Human Ecology Dept., Free University Brussels, Belgium

David Pimentel, Cornell University, Ithaca, NY, USA

Book Review Editor: Giles Atkinson, Dept. of Geography and Environment, London School of Economics, UK

Environment, Development and Sustainability is an international and multidisciplinary journal covering all aspects of the environmental impacts of socio-economic development. It is also concerned with the complex interactions which occur between development and environment, and its purpose is to seek ways and means for achieving sustainability in all human activities aimed at such development.

The subject matter of the Journal includes the following and related issues:

- ▶ mutual interactions among society, development and environment, and their implications for sustainable development
- ▶ technical, economic, ethical and philosophical aspects of sustainable development
- ▶ global sustainability - the obstacles and ways in which they could be overcome
- ▶ local and regional sustainability and their practical implementation
- ▶ development and application of indicators of sustainability
- ▶ development, verification, implementation and monitoring of policies for sustainable development
- ▶ sustainable use of land, water, energy and biological resources in development
- ▶ impacts of agriculture and forestry activities on soil and aquatic ecosystems and biodiversity
- ▶ effects of energy use and global climate change on development and sustainability
